DEFAULT PROJECT RULES

- ✓ **Read Every Word Carefully:** Give importance to each message. Understand the client's vision, preferences, and requirements thoroughly before starting any work.
- ✓ **Research 3-5 Best Design Stores:** Find the top performing stores in the client's niche. Study their design patterns, layouts, color schemes, and user experience. Spend up to 5 hours on research - this is an investment.
- ✓ **Get Early Approval:** Share reference stores with the client before development. Get their feedback on design direction early to avoid major revisions later.
- ✓ **Replicate & Customize:** After approval, replicate similar design elements onto the client's store while adding custom touches that make it unique.
- ✓ **Use AI for Brainstorming:** Copy the entire chat into ChatGPT or similar AI tools. Ask it to extract key requirements, identify pain points, and suggest solutions you may have missed.
- ✓ **Solid Research = Massive Progress:** The goal is that when development starts, you move fast with confidence because the groundwork is already done.
- ✓  **No Self-Centered Thinking:** We don't work with developers who only think inside their little world. Think from the client's perspective. Think about the end user. Everything you deliver must be the BEST it can be - no shortcuts, no "good enough".
- ✓  **Self QA Before Delivery:** Before marking anything as complete, YOU must test and verify:
 - ✓ **Mobile Responsiveness:** Test on mobile, tablet, and desktop views
 - ✓ **Cross-Browser:** Check Chrome, Firefox, Safari, Edge
 - ✓ **All Links Working:** Click every button and link
 - ✓ **Forms Functional:** Test all forms, cart, checkout flow
 - ✓ **Images Optimized:** No broken images, proper alt texts
 - ✓ **Speed Test:** Run PageSpeed Insights, aim for 80+ score
 - ✓ **Spelling & Grammar:** Proofread all visible text

- o ✓ ✓ **Compare with Reference:** Does it match the approved design?

This website here is redoing there website but I want to add a video like that in my website

thesharkking1

02 Sept, 9:05

You got the knowledge to help me

thesharkking1

02 Sept, 9:05

Start looking up aquarium websites

Seller

02 Sept, 9:08

Yes, I definitely do. I'm already researching the top custom aquarium and luxury aquarium websites to understand what is working in the industry.

I'm looking at things like:

Full-screen video/visual hero sections

How they communicate the brand message

Custom aquarium project galleries

Before/after and installation storytelling

Services and process

Strong calls-to-action that turn visitors into inquiries

I don't want to simply copy another aquarium website. I want to take the best ideas and create something that feels unique to Acrylic Pros and makes the website much more memorable.

Seller

02 Sept, 9:08

If you have any aquarium websites you personally like, send them to me as well.

I'll use them as inspiration while planning the direction.

thesharkking1

02 Sept, 9:13

My pictures need help like before and after

And remove clutter

Seller

02 Sept, 9:19

Got it. I have a clear direction now. Just a couple of things so I can plan the redesign properly:

Do you already have video footage you want to use for the main hero section?

Do you want the website mainly focused on getting customers to request a

quote / consultation, or is there another main action you want visitors to take?

Roughly how many aquarium projects/photos do you want us to showcase?

thesharkking1

02 Sept, 9:24

I will have a video soon by next week

thesharkking1

02 Sept, 9:25

I got other videos now we can put in

thesharkking1

02 Sept, 9:25

The main page should have a video and look super nice

thesharkking1

02 Sept, 9:25

The rest of the pages to follow

thesharkking1

02 Sept, 10:52

thesharkking1

02 Sept, 10:52

Just one clothing page

One shark selling page

Seller

02 Sept, 10:53

Perfect, got it. We'll keep the animated logo since you like it. So for TheSharkKing, we'll have one clothing page and one shark products/selling page.

thesharkking1

02 Sept, 10:53

02 Sept, 10:58

Let's do one thing we'll prepare a single PDF covering the complete requirements for both websites based on everything we've discussed. You can review everything in one place, and if you want to add or remove anything, just let us know and we can adjust it accordingly.

thesharkking1

02 Sept, 10:58

Ok

Seller

02 Sept, 11:04

For the 12 products on TheSharkKing, would you like us to upload and set them up for you, or will you be adding the products yourself?

Seller

02 Sept, 11:30

No worries at all! Of course, we'll take care of everything for you. That's exactly what we do. We were only asking to understand your preferences and make sure we build everything the way you want. Sorry if it came across differently!

Seller

02 Sept, 11:32

Here's the full proposal, attached above. It covers both websites in one document, kept separate throughout so nothing gets mixed up. You'll find both sites priced together, and each one priced on its own, so you can do the acrylic one first and the other later if you'd rather.

Seller

02 Sept, 11:34

Once you've had a chance to review the proposal, please let us know. We can then move forward with the work right away

Seller

02 Sept, 12:01

Hi! Just following up to see if you had a chance to review the proposal. We've included everything we discussed for the Acrylic Pros website, along with the scope for The Shark King. If everything looks good from your side, we can get started with Acrylic Pros first and move forward from there. Let me know if you have any questions or if you'd like me to clarify anything in the proposal.

thesharkking1

02 Sept, 12:53

Is my acrylic pros website now considered a basic website ?

Seller

02 Sept, 12:59

No, not at all. Acrylic Pros is definitely not being treated as a basic website. We understand that you want a premium, attention-grabbing redesign with the video homepage, animations, improved visuals, before/after sections, SEO, CRO and the full website transformation we discussed.

The proposal is just showing the available plan structure and pricing, but the Acrylic Pros scope we discussed is the premium redesign. I'll make sure that's clearly reflected so there's no confusion.

Seller

02 Sept, 13:01

The plan names are just how we've structured the pricing options. If you look at what's included in the plans, you'll see that they cover the exact requirements we discussed for Acrylic Pros the full redesign, video homepage, animations, image improvements, SEO, conversions, and everything else we went through.

thesharkking1

02 Sept, 13:01

So you will redesign the entire website

Seller

02 Sept, 13:02

Yes, it's for each website. We'll handle the complete redesign and everything included in the plan, including all the features and requirements we discussed.

thesharkking1

02 Sept, 13:07

Can it be broken into two payments

Seller

02 Sept, 13:08

Sorry about that, but we work with a single upfront payment for the project rather than splitting it into two payments. I hope that's okay.

thesharkking1

02 Sept, 13:08

Yeah

Seller

02 Sept, 13:10

Thank you for understanding. May I ask which plan you'd feel most comfortable going with? We can take it from there and get everything moving for you

Seller

02 Sept, 13:12

Also, just to confirm, would you like us to work on the combined project for both websites, or are you looking to move forward with just one website for now?

Seller

02 Sept, 13:21

Whenever you get a chance, could you please let us know which plan you'd prefer and whether you'd like to move forward with both websites or Acrylic Pros only for now? Once we have your preference, we can get everything moving for you.

thesharkking1

02 Sept, 13:21

For now I just need acrylic pros I can't handle working on both websites

thesharkking1

02 Sept, 13:22

But I do need the shark king one made also

thesharkking1

02 Sept, 13:22

I want to see how good you are first

thesharkking1

02 Sept, 13:22

Before I jump into both

Seller

02 Sept, 13:24

That's totally fine with us! We can start with Acrylic Pros first, and then move on to The Shark King based on your preference.

Seller

02 Sept, 13:24

For Acrylic Pros, which plan would you prefer to go with? Once you confirm, we can get everything started.

thesharkking1

02 Sept, 13:27

Well the premium one

Seller

02 Sept, 13:31

Perfect I believe you're leaning toward the Premium plan for Acrylic Pros correct? If that's the one you have in mind, we can send over the custom offer and get things moving right away.

thesharkking1

02 Sept, 13:32

Yeah but for the agreement price of 1500

Seller

02 Sept, 13:35

Yes, absolutely! We can honor the price we discussed. The plans are structured based on the features and functionality included in each one, so we can't offer the Premium plan at .

The plan is our Basic plan, but it already covers all the main requirements you've asked for. The Standard and Premium plans simply add more advanced features, functionality, and different levels of post-launch support.

So if you'd like to stay with the agreement we can move forward with the Basic plan and include everything that's listed in that plan.

thesharkking1

02 Sept, 13:36

Where you based out of ?

Seller

02 Sept, 13:37

Basic is just the plan name . Your website will still be premium and built to all the requirements we discussed.

Seller

04 Sept, 11:04

Haha no offense taken bro. I actually agree with you - Reef Savvy was only shared as an example of the type of aquarium functionality, not as the visual direction for Acrylic Pros.

For Acrylic Pros, I completely understand what you mean. The goal is to make it feel premium, modern, interactive, and high-end, rather than looking like a basic WordPress site.

Seller

04 Sept, 11:04

We'll focus heavily on:

- * More polished visual design and spacing
- * Smooth animations and interactive elements
- * Strong hero section with video/motion
- * Interactive gallery and before/after sections
- * Better hover effects and micro-interactions
- * A more premium mobile experience
- * Clearer CTAs and conversion-focused layout
- * Your AI character integrated naturally into the chat feature

Basically, when someone lands on Acrylic Pros, it should immediately feel like a premium aquarium company, not a cheap template website.

Seller

04 Sept, 11:04

And yes, we'll build the design specifically around Acrylic Pros and your brand - the examples were just to give you a rough idea of the possibilities.

We can add a video in the home page ? Does it need to be YouTube video or just a video made on iPhone

Seller

14 Sept, 11:25

Yes, absolutely! It doesn't have to be a YouTube video. You can provide a video recorded on your iPhone, and we can upload it directly to the website and use it on the homepage.

If you already have good footage of your work aquariums, that would actually be a great option for making the homepage feel more personal and engaging.

Hi,

Yes, we're ready to move forward with the work. For the next steps, we do need access to the GoDaddy account when it's time to switch everything over.

Please provide the GoDaddy access/login details for the account associated with mabtang1 at gmail.com

Once we have the access, we can proceed with the setup and handle the switch-over when the website is ready.
